Saint-Eustache, Québec

OBJECTIVE I'm looking to join a team of programmers and share 20+ years of experience in the various phases of the software development cycle. More than willing to learn new skills and participate in an organization's success.

EXPERIENCE **Les Logiciels SIGM Inc.** **2000 – 2024**
Boisbriand, Québec

Senior Programmer Analyst

- Maintained, updated and developed new features in the SIGM ERP solution
- Created and maintained custom client software applications
- Requirement, functional and technical analysis
- Detailed design
- Summary and detailed estimations using COSMIC Function Points (CFP)
- Quality control (unit testing, white and black box testing)
- Code and test reviews
- In charge of repairing all client data corruptions
- Provide support to the technical support team
- Official software translator (from French to English)

Notable accomplishments : the development of several key modules such as Multi-Warehouses, Lot and Pallet Management (tradability), Scheduling, Project Invoicing and a Smart Factory.

Mastered technologies : Delphi, DevExpress, DBMS (PostgreSQL, Filer), Acomba SDK

Technologies used : SYMCOD and NCD.io sensors, Node-RED, Sage 50 SDK, C#

Software used: Crystal Reports, Acomba, Visual Source Safe, Sage 50, Office365, AnyDesk

Mega Data Group **1998 – 2000**
Mont-Royal, Québec

Junior Programmer

- Performed all client data version updates
- Maintained, updated and developed new features within the RealWorld accounting solution

Technologies used : COBOL

EDUCATION **Great Learning Academy** **2024**
www.mygreatlearning.com

Course Completion Certificates : [Git](#) [HTML](#) [CSS](#)

Vanier College **1995 – 1998**
Saint-Laurent, Québec

D.C.S. in Computer Science

LANGUAGES English (native language)
